

Improving Secondary CTE through Professional Development: Alternative Certification and the Use of Technical Assessment Data

ACTE, St. Louis, MO, Nov. 18, 2011

Room 260

3:45 -4:45 p.m.

Dr. John Foster

Let's Talk About...

NRCCTE and the big picture

- The mission
- The partners

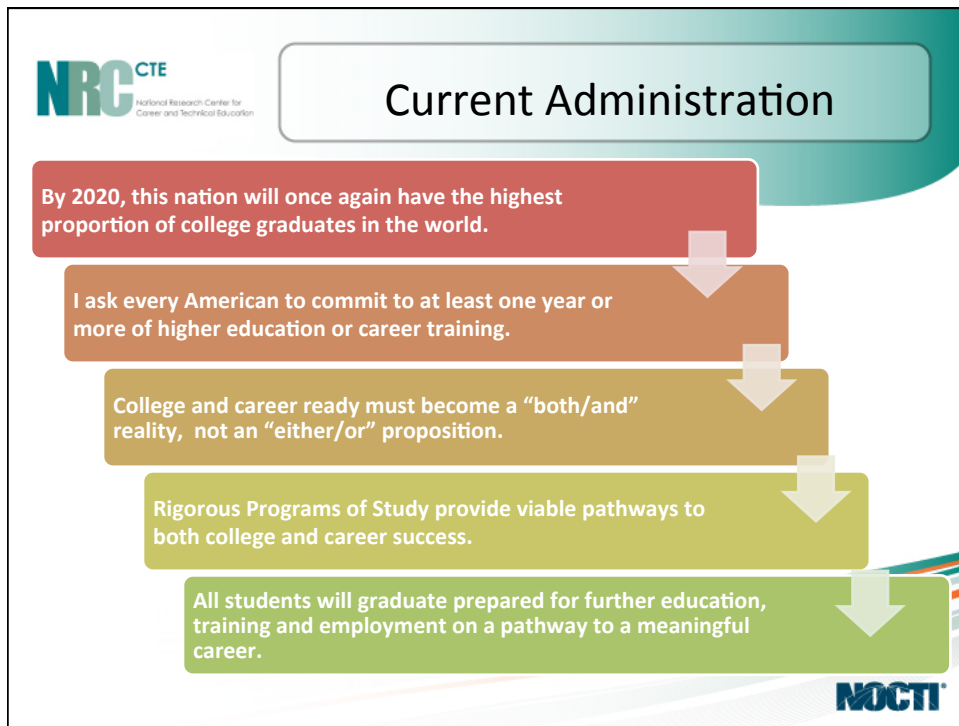

CTEDDI

- The need
- The process

Alternative Certification

- XXThe mission
- XXThe partners

NRC^{CTE}
National Research Center for
Career and Technical Education

NRCCTE: *MISSION*

The National Center will improve the ***engagement, achievement, and transition of high school and postsecondary CTE students*** through technical assistance to states, professional development for CTE practitioners, and dissemination of knowledge derived from scientifically-based research

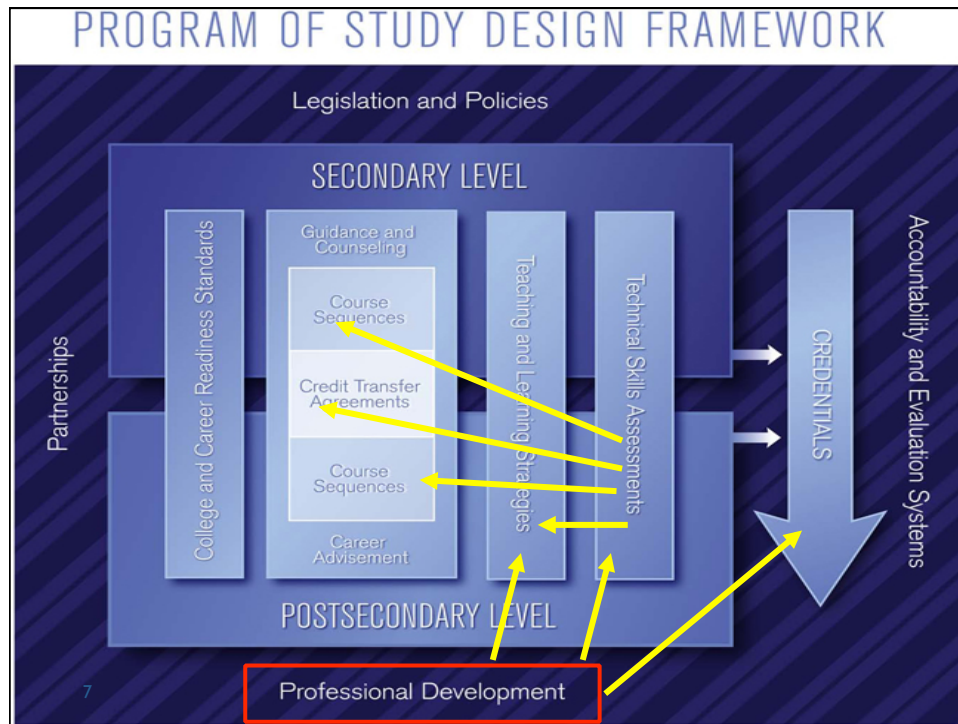

NOCTI

Definition of Professional Development

Activities that increase teachers' knowledge and change their instructional practice in ways that support student learning .

Guiding Principles of Professional Development

- Continuous and on-going
- Contextual to the teachers' work
- Emphasis on analysis and reflection
- Active engagement that reflects adult learning principles
- Collaborative communities of practice
- Connected to efforts to improve student learning

Putting the Data to Work

CTEDDI

Career and Technical Educators
Using a Data Driven Improvement Model

What is CTEDDI?

- Training that is highly interactive
- A process, not a one-time event
- Uses data that teachers and schools own
- Builds on the success of an ever-increasing community of practice
- Ongoing state-supported mentorship, local coaches and online help

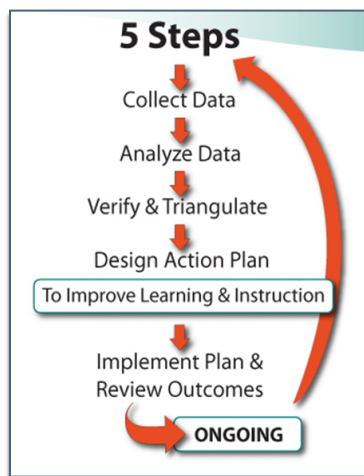

CTEDDI's Origin

- Survey research and literature review
How CTE uses data to inform instruction
- Intervention Development
 - Pilot the intervention and iteratively refine
 - Extended reviews and model verification
 - Market research and viability

CTEDDI Instructional Improvement Cycle

Teacher
Swenson, PA

Received my first homework assignment. Looking for carpentry instructors willing to discuss NOCTI strategies utilizing Pre-Test data to improve instruction. We have created some helpful NOCTI driven curricular documents in the School Dist. of Phila. recently that are aiding us in focusing the carpentry, electrical and plumbing programs in an organized framework. Hope we can be helpful. --- [Patrick.durkin](#) 3/16/10

Benefits of CTEDDI

- **Educators:**
 - Data-driven instructional improvement
 - Improved ability to meet accountability goals
 - A positive educational impact
- **CTE Community:**
 - Practical application of Perkins data
 - Logic-based policy tool
 - Demonstrate ROI
- **Everyone**
 - Increased student achievement
 - Enhanced preparation for college and careers
 - Gains in workforce competence/productivity

Ways to Participate

Statewide Implementation

- State DOE support
- Use of Sharing Center
- Ongoing mentorship
- Access to evolving resources
- Access to a national network
- Statewide common workshops on data
- Use of real data

Jump-Start

- Local support
- Access to existing resources (for the Jump-Start days only)
- 2-day workshop on CTEDDI process
- Use of mock data

Introductory PD

- Access to existing resources (for the day only)
- 1-day (or less) workshop
- Use of a portion of exercise data

SREB

CTE Teacher Alternative Certification Induction Model

Southern
Regional
Education
Board

SREB

Alternative Certification Model for Career/Technical Teachers

- **Develop an induction model for new CTE teachers pursuing alternative route certification**
- **Increase competency, self-efficacy, and career commitment**
- **Prepare the intervention for experimental trials**

Why This Project?

Complexity of Nontraditional Entry into CTE Teaching

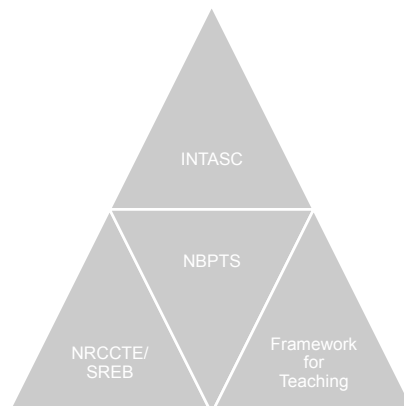

- Diversity of certification routes
- Increasing percentage of teachers entering through nontraditional routes
- Unique needs of beginning CTE teachers
- Teacher attrition
- Shortage of CTE teachers

Increased CTE Teacher Responsibility

- Challenges of the new mission —students college and career ready
- Role of CTE in school improvement
- Student diversity
- Intellectual rigor
- Project- and problem-based learning
- Embedded academic content

Research-Based Professional Development Content Alignment

- Interstate New Teacher Assessment and Support Consortium Model Standards for Beginning Teachers (1992)
- Framework for Teaching (Danielson, 1996)
- National Board for Professional Teaching Standards for Career/ Technical Teachers (1997)

SREB Components of the Intervention

Professional Development

10	<ul style="list-style-type: none"> • 10 Day Summer Institute • Prior year one teaching
6	<ul style="list-style-type: none"> • 3, 2-day follow-ups during year one teaching
10	<ul style="list-style-type: none"> • 10 Day Summer Institute • Post year one teaching
1	<ul style="list-style-type: none"> • One-hour webinars • Held in months without professional development session

Support

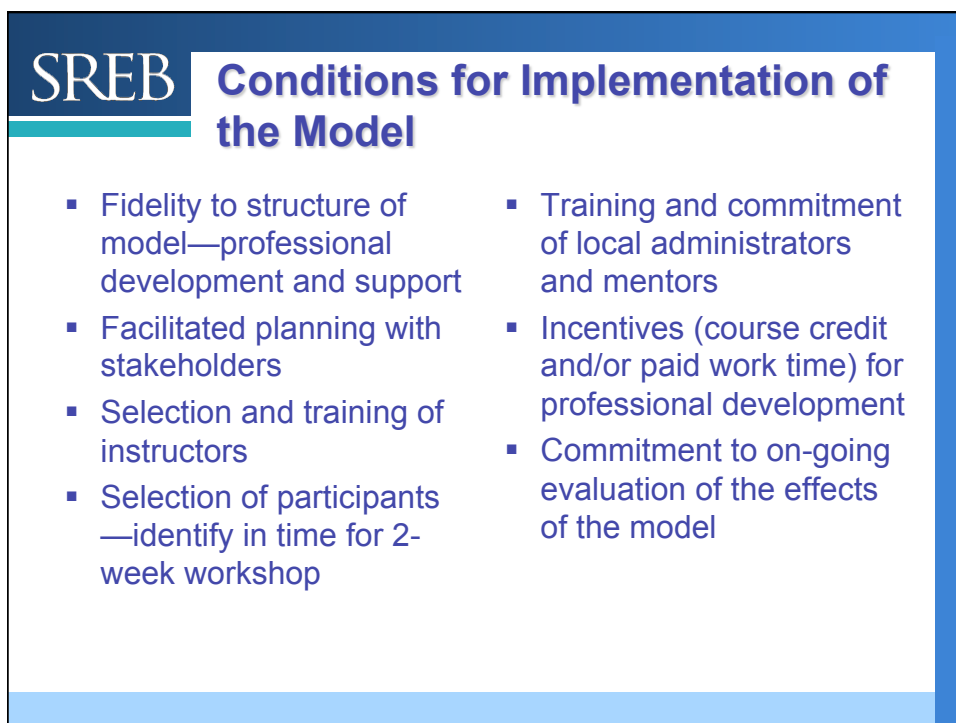

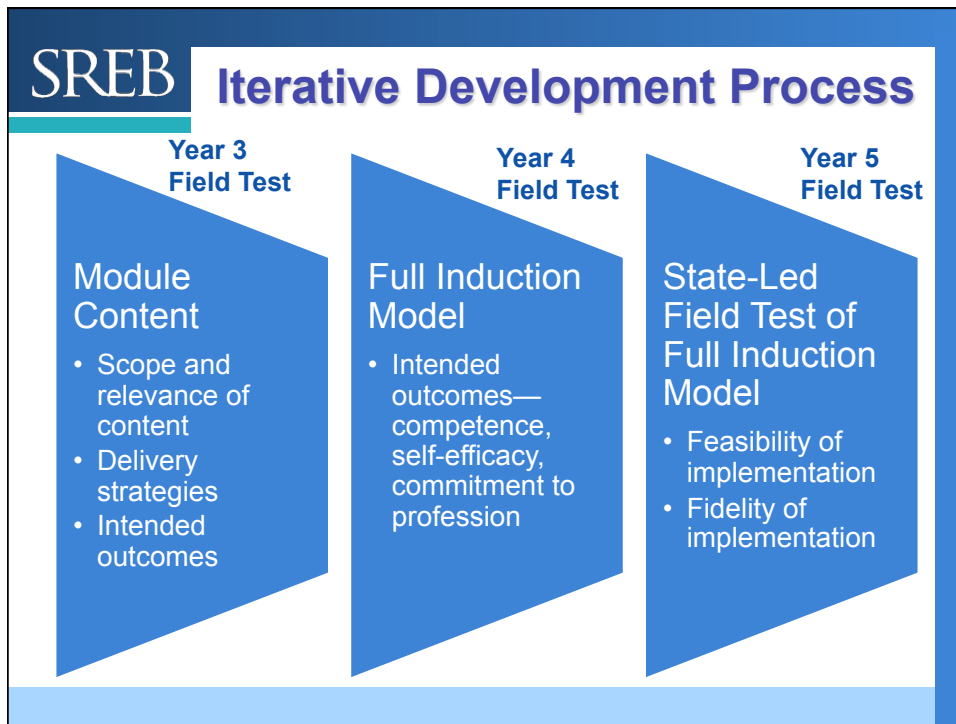

- On-site coaching visits from the professional development instructor
- Mentoring from a trained, experienced teacher
- Support from the building administrator
- Electronic communities of practice

SREB Professional Development Content

Teacher Competence

<p>Instructional Planning: Create short-term and long-term standards-based instructional plans based on the varying learning needs of students.</p>	<p>Instructional Strategies: Use instructional strategies that actively engage students in learning and encourage the development of problem-solving, critical thinking, and teamwork skills.</p>
<p>Classroom Assessment: Use formal and informal assessment strategies to evaluate student progress toward learning goals and provide feedback to improve student learning.</p>	<p>Classroom Management: Create a learning environment that encourages student motivation, positive behavior, and collaborative social interaction.</p>

Teacher Reflection: Reflect, both individually and collaboratively, on the effects of instruction and use the reflective process to continually improve instructional practice.

SREB What's Next?

- Collecting data on state-led field test this year
- Initiating discussions with states about the use of the model
- Piloting module content with veteran teachers
