College Career Math Ready

This course is designed for high school seniors who have completed Algebra I, Geometry, and Algebra II. The course emphasizes understanding of mathematics concepts rather than just memorizing procedures. By engaging students in real-world applications, College Career Math Ready develops critical thinking skills that students will use in college and their career. For more information, www.sreb.org/math-ready.

Ready for High School Math

This course can be used in 8th or 9th grade to prepare students for high school coursework. Students learn why to use a certain formula or method to solve a problem. By engaging students in real-world applications, Ready for High School Math develops critical thinking skills that students will use throughout their high school studies. For more information, visit www.sreb.org/ready-high-school-math.
